

Parabiago, 07th May 2025

Dear Customer,

The current price list was forwarded you in October 2024.

Since that date, many things have changed in the international geopolitical context, unfortunately, with only negative developments.

In the early months of 2026 the war in the Middle East has led to a significant worsening and a further increase in the costs of many raw materials and services necessary for our production.

Because of these increases, we are forced to revise our price list, applying a general increase of 4,2%.

The 2026 PRICE LIST become effective from this communication for all orders with delivery after 01st July 2026. Orders will still be accepted under the old conditions, but only for deliveries within 30th June 2026, subject to material availability.

Orders that have already been entered in the past months with delivery in the second half of 2026 may be subject to renegotiation.

Some clarifications on the new price list:

+4,2%	GENERAL INCREASE
--------------	------------------

With some exceptions, such as:

+6%	GP
	IGP
	VPPL
	VPPM

+8,5%	Coils for all solenoid valves
--------------	-------------------------------

Best regards

Roberto Maddalon
